

FOOD VALVE

No rubber seals. No O-rings. No problem.

Our revolutionary **Food Valve** creates **ideal vacuum pressure and flow rate** without the use of rubber seals or O-rings. It uses an interference fit to create a seal and will hold high amounts of vacuum in the processing environment. **Our Food Valve is 40% lighter than Stainless Valves**, and can easily be taken apart for cleaning in less than a minute.

Currently available in 4" and 6" with custom sizes available.

- No Gasket
- Toolless Assembly
- Vacuum Rated
- Sanitary Design
- Manual or Pneumatic
- Patent Pending
